The Wayne Messam For America (WMFA) Campaign wishes to terminate the committee. There has been no campaign activity since the suspension of the campaign back 2019. The WMFA committee has not received any contributions or had any expenditures since 2019.

Our current reporting shows outstanding debt of \$81,875.50. This total is actually an overstated estimate for website and management services. Due to the early termination of the campaign, these estimated services were not provided to WMFA. Each respective vendor has provided a letter stating that no additional fees are owed to their respective firms due to the fact the WMFA committee was terminated and thus the additional services were never provided. WMFA has paid all fees to Hall Consultants, LLC and Jadis Interactive Agency for all services provided prior to the committee's early termination. However, WMFA needs to have the overstated estimates showing as outstanding debt to be zeroed out as an over estimate.

WMFA has copies of the aforementioned letters as supporting backup and will also mail them to the FEC's attention.
